Index volume 8 (2001)

Articles

No. 1

Editorial 3

Value dimensions, meaning, and complexity in human occupation—a tentative structure for analysis 7
Persson D, Erlandsson L-K, Eklund M, Iwarsson S

Discussion of the ICIDH-2 in relation to occupational therapy and occupational science 19
McLaughlin Gray J

Describing patterns of daily occupations—a methodological study comparing data from four different methods. . . . 31
Erlandsson L-K, Eklund M.

Employment and the reconstruction of self. A model of space for maintenance of identity by occupation. 40
Jakobsen K

How therapists' conceptual perspectives influence early intervention evaluations. 49
Burke JP

Calendar 62

No. 2

Health and the internal structure of the self-care ability scale for the elderly (SASE). 67
Söderhamn O

The test of visual perceptual skills (non-motor) upper level is not a valid predictor for the outcome of driver education 72
Falkmer T, Vogel K, Gregersen NP

The effect of handrim position on torque development for wheelchair propulsion. 79
Murata J, Shimizu J-I, Inoue K, Matsukawa K

The experience and management of temporality in five cases of dementia 85
Nygård L, Johansson M

How a group of disabled persons experience rehabilitation over a period of time. 96
Larsson Lund M, Tamm M

Development and evaluation of a health education programme for elderly persons with age-related macular degeneration 105
Dahlin Ivanoff S

The sensational hand: Clinical assessment after nerve repair 106
Rösen B

Adaptation and ability in daily occupations in people with poliomyelitis sequelae. 107
Thorén-Jönsson A-L

Rehabilitation of patients with chronic pain in primary health care. 108
Mårtensson L

No. 3

Everyday occupations and the process of redefinition: A study of how meaning in occupation influences redefinition of identity in women with a disability 115
Magnus E

Psychiatric patients' occupational roles: Changes over time and associations with self-rated quality of life 125
Eklund M

Measurement properties of a client self-report for treatment planning and documenting therapy outcomes. 131
Kielhofner G, Forsyth K

Test–retest reliability of the Sunnaas ADL Index 140
Bathen T, Vardeberg K

Quality of care in geriatric rehabilitation: Clients' perceptions, ADL dependence, and subjective well-being in a one-year perspective. 148
Nygren C, Iwarsson S, Isacsson Å, Dehlin O

Living with muscular dystrophy: Illness experience, activities of daily living, coping, quality of life and rehabilitation . 157
Nätterlund B

Transport mobility for children and adolescents with cerebral palsy (CP) 158
Falkmer T

Calendar 159

No. 4

The clinical reasoning of novice and expert occupational therapists 163
Unsworth CA

Occupational therapy as documented in patients' records—III. Valued but not documented. Underground practice in the context of professional written communication 174
Lundgren Pierre B

The domain of concern of Swedish occupational therapists working in psychiatric care 184
Stenbeck B, Eklund M, Hallberg IR

Measuring kitchen performance: What assessment should we choose? 193
Josman N, Birnboim S

Shifting horizons. Life changes and learning in relation to visual impairment or blindness 203
Berndtsson I

Needs assessment in occupational therapy. Studies of persons with long-term/recurrent pain 204
Müllersdorf M

Calendar 205
